Have you always loved the look of a scalloped border but hesitated trying it yourself? This class will show you how to make a simple scalloped border on a table topper. You will learn to measure and mark scallops, as well as how to make bias binding.

Required for Class:

- Students need to have rotary cutting and binding experience.
- Small quilted topper (pattern provided with supply list). Topper must be completed before class.
- Recommended: A pre-quilted, cut-to-size kit is available and eliminates sewing prep before class.
